

How Can I Create A Circle?

- Any group or individual may become Founders of a Circle of Investment. They will have the opportunity to name the circle in honor of an individual, group, or company.
- Circles of Investment may be started with any dollar amount but is not expended for support until one year after it reaches \$10,000. Only the interest income is used and the principal will not be invaded.
- Founders may choose or create a circle of special interest of their choice. All circles can be expanded with additional donations.
- Programs funded by the Circles of Investment are to enhance programs supported by the Quincy Public Schools.
- QFQE will work with Founders to find a circle that fits their needs and that of the Quincy Public Schools.
- Your investment in education will support children for generations to come.

What is the Quincy Foundation for Quality Education?

In 1989 the Quincy Foundation for Quality Education (QFQE) was created to collect and distribute financial and other resources for the enrichment of academic programs as well as other projects focused on enhancing the quality of education. To date, the foundation has funded approximately 100 grants in every area of curriculum. This has been accomplished through volunteer time and donations to QFQE.

MISSION STATEMENT

Recognizing the importance of support for public education, it shall be the mission of the Quincy Foundation for Quality Education to acquire and distribute financial and other resources to Quincy School District 172 for the enrichment of academic programs and other projects aimed at enhancing the quality of education and providing students with extended learning opportunities.

What Are Circles Of Investment?

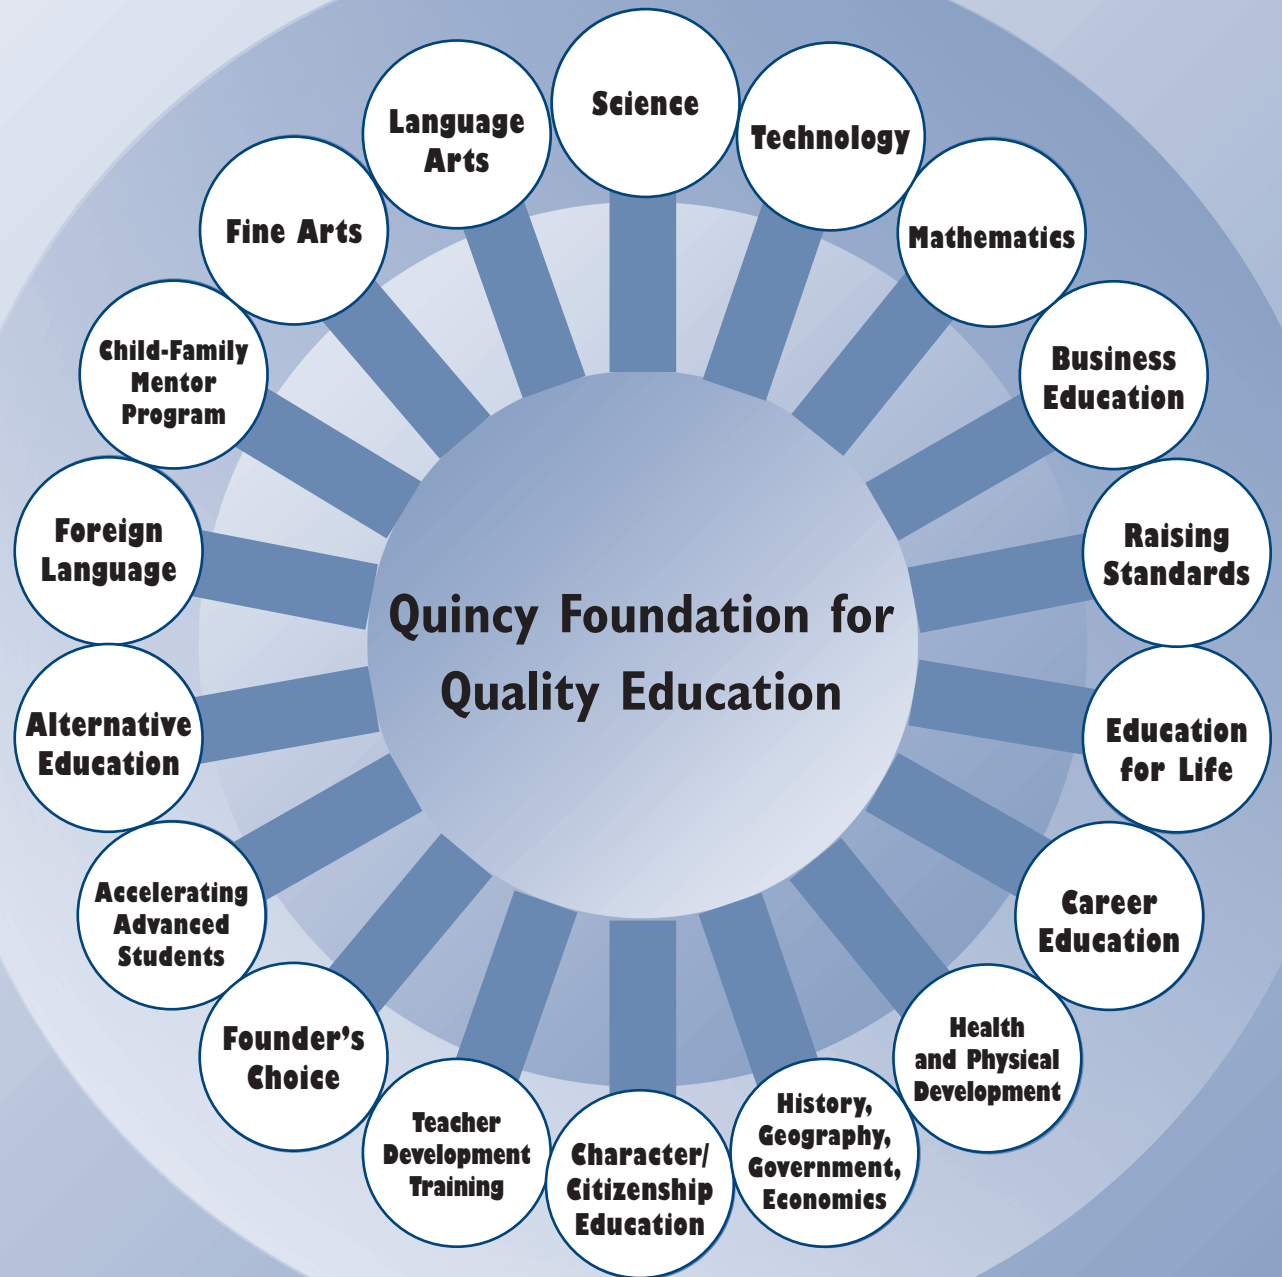

Circles of Investment are a unique way to honor an individual, group, or company while adding support to students and education in Quincy. This investment will touch the lives of children in our community for generations to come.

The goal of the Circles of Investment Program is to enhance quality education in the Quincy Public Schools through monetary support. Programs funded create extended learning opportunities that fall within the mission of the Quincy Public Schools.
